

WELCOME TO ROUTECO

Routeco
A Sonepar Company

Our Vision, Mission and Values

Routeco is a growing organisation whose vision for the future is to be both a partner to our customers and suppliers and an employer of choice.

Our mission encompasses our desire to develop our employees so they are able to provide excellence in what they do; in turn creating the desire for our customers and suppliers to choose Routeco to work with on a daily basis.

Our values define how we want to conduct ourselves and our business and help us to create value for our customers, our people and our organisation; setting the PACE for the future!

Professionalism and Knowledge:
strive for continual improvement

Ambition:
the desire to add value and be innovative

Collaboration:
the ability to work effectively with others

Excellence:
service delivery that exceeds expectations

Serving Industry

Serving industry has been the prime focus of Routeco since 1978. We have always specialised in providing our customers with the very best industrial control and automation products.

A broad spectrum of industries depend upon us for our unique commitment in providing a comprehensive quality service: from pharmaceutical and food processing, to material handling and petrochemicals; from mining and metals, to utilities and textiles; from automotive and construction, to machine tool and printing.

Our engineers are constantly being trained to the latest standards and assessed to ensure that we offer our customers the most up-to-date information to enable them to maximise the investment they have made in the technology they have procured from us.

By staying focussed on our mission statement and values, we will continue to strive to be at the forefront of industrial control and automation distribution and become the partner of choice for our industrial customers.

“

It's a pleasure to work with a company which not only understands and accommodates customer requests, but adds value to them through innovative applications and ideas.

”

Value-Added Services

We offer the broadest range of value-added services available. We excel at working with our customers in designing and supplying custom solutions to meet the unique needs of their market requirements.

Our value-added services include:

- > Assemblies
- > Asset Management
- > Commercial Services
- > Consultancy
- > Energy Solutions
- > Engineering
- > eSolutions
- > Supply Chain Management
- > Technical Support
- > Training

We are always looking to meet our customers' changing business requirements by supporting them in a wide range of areas, saving them both time and money.

We have a proven track record of reducing customer costs through understanding operational efficiencies. This is achieved by utilising our team of specialists delivering technical excellence complimented by our value-added services.

We offer a comprehensive range of delivery services and our warehouse is available

24/7/365 for emergency call outs.

Customers have access to

1000s

of products available from our warehouses.

“

There are many things that make Routeco a cut above the rest, but for me, the most impressive thing is the service they give. The local branch staff are among the most courteous, diligent and knowledgeable I have come across.

Graham Port
Enhanced Control Systems

”

“

The employees and products have added such tremendous value to our business. The communication, service and delivery are all fast, efficient and professional making Routeco our preferred business supply partner of choice.

Managing Director
GEMitchell Ltd

”

Customer satisfaction is our number

1

priority.

Routeco has successfully established itself as one of Europe's leading distributors of industrial automation and control products. Over an impressive period of sustained and continuous growth, Routeco has secured a network of sales locations employing over 300 personnel.
