DESCRIPTION:

The MOD 3 push on cable and wire marking system is designed to save assembly time and provide precise identification. The colour-coded system is suitable for marking cross-sections of between 0.5mm² and 6.0mm². Choose from either colour-coded markers with numbers or black on yellow markers with letters, all stamped with permanent identification. Side clipping design ensures precise alignment and fixes tightly to the cable. Supplied in boxes.

APPLICATIONS:

Ideal for general panel building, telecoms and utilities.

SPECIFICATION:
