

DESCRIPTION:

CW type brass indoor and outdoor cable glands are ideal for use with all types of Single Wire Armour (SWA) cable, providing seal on the cable outer sheath. The cable gland also provides mechanical cable retention and electrical continuity via armour wire termination. A detachable armour cone and clamping ring arrangement allows the cable to be easily disconnected from the equipment, for maintenance and change out etc. The CW range of industrial cable glands is designed and tested to BS6121: Part 1: 1989, EN 50262: 1999.

SPECIFICATION:

MATERIAL: Brass
FINISH: Plain Brass
CABLE TYPE: Steel Wire Armour
IP RATING: IP 66
STANDARDS: Standard BS6121: Part 1: 1989, EN50262: 1999.

KIT CONTENTS:

- 2 x brass glands
- 2 x steel locknuts (brass supplied for G.C.C. countries)
- 2 x brass earth tags
- 2 x LSF shrouds for sizes up to 25mm

For sizes 32mm and above, each kit includes 1 of each component.
