Description: Cold air may be routed directly to specific areas of the enclosure using the air duct system.

The risk of air short circuits due to self-ventilated installed devices is therefore eliminated. The dimensions of the shallow duct are W \times H \times D 229 \times 1500 \times 29 mm, and can be shortened to

the required length.

Material: Flame-resistant plastic to DIN 4102/B1

Colour: RAL 7035

Supply includes: Shallow duct

Compensating hose

Note: Do not direct cold air straight at active components.

When using the ducting system, the performance of the cooling unit may be reduced,

depending on the application in question.

For devices 3359..../3382...., the air duct adaptor 3286.840 is additionally required.

To fit Model No.: 3209....

3210....

3273....

3359....

3382....

3383....

3384....

3385....
