## CU-FLEX FLEXIBLE BUSBARS

### Tested flexible busbars

Cu-flex is made of copper wires that are woven to a flexible busbar. By the use of a patented technique, the ends of the busbar is forged to a solid unit, thus obtaining a contact surface that makes it possible to make maintenance-free connections.

## TESTED FLEXIBLE COPPER BUSBARS

Cu-flex busbars ensure a prompt and professional execution of electrical connections. The busbars are supplied ready for use! This means that you do not have to spend time on shortening, stripping the wires, making holes, or complicated bends.

Cu-flex has been tested and approved under various circumstances by i.a. DEKRA and DNV.

In addition Cu-flex is UL recognized in category "Component - Panelboard and Switchboard Accessories".
