## Rockyyell

## 802T Plug-I n Safety Limit Switches

## Description

The 802T Direct Opening Action limit switches have been designed for use in control reliable applications and safety applications per ISO 14119. These limit switches utilize the same mounting dimensions as other NEMA style limit switches. The rugged metal construction and plug-in body are designed for use in harsh industrial environments.

Direct Opening Action allows the normally closed contacts to open when the limit switch is actuated. This opening will occur even in the event of a contact weld condition, up to 10 Newtons.

ATTENTION: To ensure that the normally closed (safety) contacts open, the limit switch actuator must be displaced beyond the point of Direct Opening Action (see specifications)

## Features

- Direct opening action
- Snap acting contacts
- Rugged metal construction
- Long life and reliability
- Plug-in design
- NEMA 12, 13, 4, 6P/IP67 sealing

## Typical Applications

- Machine guards
- Access gates and doors
- Cranes or hoists
- Transfer stations
- Indexing tables
- Robotic cells

Safety Classification
Functional Safety Data * Note: For up-to-date information, visit http:// www.ab.com/ Safety/

EN 954-1, ISO 13849-1, IEC/ EN 60204-1, NFPA 79, EN 1088, ISO 14119, IEC/ EN 60947-5-1, ANSI B11.19, AS 4024.1
Cat. 1 Device per EN 954-1 Dual channel limit switch suitable for Cat. 3 or 4 systems
B10d $=>2 \times 106$ operations at min. load
PFH ${ }_{D}=>3 \times 10-7$
MTTFd $=>385$ years
Dual channel limit switch may be suitable for Performace levels Ple or PId (according to ISO 13849-1:2006) and for use in SIL2 or SIL3 systems (according to IEC 62061) depending on application characteristics

CE Marked for all applicable directives, cULus Listed, and TÜV for 2- and 4-circuit models

Certifications

## Die-cast alloy

Various metals or plastics
2 \#10 equal length fasteners
Contact fragility (10... 2000 Hz @ 0.06 inch peak-to-peak)
Contact fragility ( 25 Gn 3 pulses per axis)
1/2 inch NPT or M20
Grey

* Usable for ISO 13849-1:2006 and IEC 62061. Data other than B10d is based on:
- Usage rate of lop/ 10 mins., 24 hrs/ day, 360 days/ year, representing

51840 operations per year

- Mission time/ Proof test interval of 38 years
$\ddagger$ The safety contacts are described as normally closed (N.C.) i.e., with the guard closed, actuator in place (where relevant) and the machine able to be started.

## AC Contact Rating (Maximum per Pole, 50 or 60 Hz ,

2 Circuits)

| NEMA <br> Rating Designation | Max Voltage | A |  | Continuous Carrying Current | VA |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Make | Break |  | Make | Break |

## Modifications and Typical Levers—Modifications.

## Typical Example of a Dual Channel Safety Application

## Approximate Dimensions

Dimensions are shown in mm (in.). Dimensions are not intended to be used for installation purposes.

Plug-In Switch

## Modifications

## Metric Conduit Entry

To order a limit switch with a 20 mm conduit entry, add the suffix $\mathbf{S 6}$ to the cat. no. Example: 802T-APDS6.

## Pre-wired Cable

To order a factory-installed pre-wired type STOOW-A cable (5-conductor), add the suffix $\mathbf{Y}$ plus the number of feet required. The standard cable length is 1.52 m ( 5 ft ). Extended cable lengths are available in multiples of $1.22 \mathrm{~m}(4 \mathrm{ft})$ only.

Example: To order a limit switch with a factory-installed $1.52 \mathrm{~m}(5 \mathrm{ft})$ cable, the cat. no. would become 802T-APDY5. To order a limit switch with a factory-installed $2.44 \mathrm{~m}(8 \mathrm{ft})$ cable, the cat. no. would become 802T-APDY8.

## Mini-Style Quick-Disconnect

To order an 802T pre-wired limit switch with a 5-pin (2 circuit) or 9-pin (4 circuit) mini connector, add the suffix J $\mathbf{1}$ or J 9 depending on desired wiring (J 9 wiring not available for 4 -circuit models) to the cat. no. Example: 802TAPDJ 1.

## "J1" Wiring ("J9" wiring not available for 4 circuit)

## Micro-Style Quick-Disconnect

Micro quick-disconnects are available with a 5-pin 2-keyway AC or 5-pin single keyway DC. To order a limit switch with a AC micro quick-disconnect, add the suffix R5 to the cat. no. To order a limit switch with a DC micro quick-disconnect, add the suffix D5 to the cat. no. Example: 802TAPDR5 and 802 TAPDD5.

## Levers

| Type | Roller [mm (in.)] |  |  | Cat. No. |
| :---: | :---: | :---: | :---: | :---: |
|  | Material | Diameter | Width |  |
|  | Nylon | 19.05 (0.75) | 7.11 (0.28) | 802T-W1 |
|  | Nylon | 19.05 (0.75) | 25.4 (1.0) | 802T-W1H |
|  | Steel | 19.05 (0.75) | 6.35 (0.25) | 802T-W1A |
| Non-Adj. Cast Lever 38.1 mm (1.5 in.) Radius Roller on Front | Ball Bearing | 19.05 (0.75) | 5.84 (0.23) | 802T-W1B |

Note:Additional lever options are available in the Limit Switch section of the Sensors catalog.
